

Alaska Division of Agriculture Hemp Program

Product Label Example

A person offering for sale, processed industrial hemp products intended for human or animal consumption, must properly label them in accordance with 11 AAC 40.420. The label shall include the following:

- 1) The product name.
- 2) A batch number for the product.
- 3) An expiration date.
- 4) Total quantity of the product by weight or volume.
- 5) The serving size or recommended dosage.
- 6) A list of all ingredients.
- 7) The industrial hemp program in which the hemp originated.
- 8) And if the product contains any THC, the statement "Warning: Contains THC"

**This is not a real industrial hemp product; it is an illustration of what information is required to be on a product containing industrial hemp if the intended or advertised use is for human or animal consumption.*
