Re: Plan of Operations Amendment for Trail Relocation

Dear Mr. Martellaro:

Fairbanks Gold Mining, Inc. (FGMI) is requesting an amendment to the Plan of Operations for the Fort Knox Gold Mine. FGMI proposes to construct a replacement trail for the Powerline Trail. The attached figure identifies the new replacement trail configuration. The proposed relocated trail will be co-located on the north end with the RST 650 trail and co-located on an existing road on the southern end that connects to Monzulla Lane.

During construction of the replacement trail, the Powerline Trail will remain open for public use; however, once construction of the relocated trail is completed, the Powerline Trail will be closed. Closure of this trails is necessary for public safety and safe mine operations.

Should you have any questions, please contact me at 970-490-2207 or bartly.kleven@kinross.com.

Sincerely,

Bartly Kleven
Environmental Manager
