

Coordination and Public Notice

Goals

Coordination with Non-state Landowners. Coordinate the use of state land with that of private and other public landowners to provide for the optimal use, development, and protection of area resources.

Public Participation. Provide local governments, state and federal agencies, adjacent landowners, and the general public with meaningful opportunities to participate in the process of making significant land use decisions.

Management Guidelines

A. Notice for Decisions Requiring Public Notice (Under AS 38.05.945). As required by statute, public notice will be given for decisions involving the sale, lease, or disposal of (or interests in) land, property, or resources. Notice will be given to parties known or likely to be affected by an action proposed by the state or an applicant to the state.

B. Coordination with Local Plans and Zoning Ordinance. The comprehensive plan and zoning map of the North Star and Denali Borough should be reviewed by DNR prior to issuing permits, leases, or other forms of use authorizations.

C. Avoiding Conflicts with Adjacent Upland Owners. Before DNR issues a land use authorization on shorelands, DNR should encourage applicants to use areas that will reduce the likelihood of possible land use disagreements with upland owners where comments have been solicited as part of project review. DNR will consider comments from private landowners and others before making a decision. DNR will retain the right to issue a land use authorization over the objection of adjacent landowners.

D. Authority of State Plans. State plans only affect state lands and federal lands that have been selected by the state for conveyance. They do not affect Borough, other state lands not affected by Title 38, other federal lands, or private lands.

Boroughs have developed and will continue to develop local comprehensive plans for specific parts of the two boroughs. These are intended to identify preferred land use patterns and development stipulations. DNR reviews these plans in the course of developing management plans or area plans, and often makes use of their recommendations. However, while community comprehensive plans can make recommendations for state lands within their planning areas, they cannot establish land use designations or other planning

requirements for state land. State land use designations are decided on a regional basis through the state land use planning process and local plans do not supersede state plans for the use of state lands.

DNR adjudicators should consult with the appropriate DOD official if there are questions pertaining to state authorizations' effects on military activities.

E. Other Guidelines Affecting Coordination or Public Notice. Several other guidelines may affect coordination or public notice. See other sections of this chapter.
